

PRESSURE TESTING

MKPP Enterprise's Progressive Achievement Newsletter - Episode 1

UNFIRED STEAM GENERATOR

Pressure tests are a non-destructive way to guarantee the integrity of equipment such as pressure vessels, pipelines, plumbing lines, gas cylinders, boilers and fuel tanks.

THERMAL OIL HEATER

On November 24, 2022, MKPP was assigned to perform a pressure test on 2 units of Thermal Oil Heaters by Garioninaival, Italy.

BOILER LINE

It was witnessed by DOSH representatives, and the overall procedure was a smooth and professional undertaking that was applauded by clients.
